Al-Aswad, S.O., *see* Hussain, G. et al.
Al-Horani, H., *see* Al-Nakshabandi, G.A. et al.
Al-Jaloud, A.A., *see* Hussain, G. et al.
Al-Kaisi, M.M., A. Berrada and M. Stack
Evaluation of irrigation scheduling program and spring wheat yield response in south-western Colorado 34 (1997) 137
Al-Nabulsi, Y.A., *see* Al-Tahir, O.A. et al.
Al-Nakshabandi, G.A., M.M. Saqqar, M.R. Shatanawi, M. Fayyad and H. Al-Horani
Some environmental problems associated with the use of treated wastewater for irrigation in Jordan 34 (1997) 81
Al-Shammary, S.A., *see* Hussain, G. et al.
Al-Tahir, O.A. and M.A. Al-Abdulsalam
Growth of faba bean (*Vicia faba* L.) as influenced by irrigation water salinity and time of salinization 34 (1997) 161
Al-Tahir, O.A., Y.A. Al-Nabulsi and A.M. Helalia
Effects of water quality and frequency of irrigation on growth and yield of barley (*Hordeum vulgare* L.) 34 (1997) 17
Ali, I.A., *see* Farah, S.M. et al.
Ali, Z.I., *see* Farah, S.M. et al.
Aljaro, A.U., *see* Ferreyra, R.E. et al.
Amatya, D.M., R.W. Skaggs and J.D. Gregory
Evaluation of a watershed scale forest hydrologic model 32 (1997) 239
Andreu, L., *see* Koumanov, K.S. et al.
Antonopoulos, V.Z.
Simulation of soil moisture dynamics on irrigated cotton in semi-arid climates 34 (1997) 233
Armstrong, A.S.B., D.W. Rycroft and T.W. Tanton
Seasonal movement of salts in naturally structured saline-sodic clay soils 32 (1996) 15
Ashraf, M.S., *see* Izadi, B. et al.

Bakker, N., *see* Hanhart, K. et al.
Batchelor, C., C. Lovell and M. Murata
Simple microirrigation techniques for improving irrigation efficiency on vegetable gardens 32 (1996) 37
Berrada, A., *see* Al-Kaisi, M.M. et al.
Bhardwaj, A., *see* Prasher, S.O. et al.
Bil, F., *see* Hanhart, K. et al.
Bonsu, M.
Soil water management implications during the constant rate and the falling rate stages of soil evaporation 33 (1997) 87
Booltink, H.W.G., *see* Q. Minh, L. et al.
Bosc, N., *see* Cabelguenne, M. et al.

Bouma, J., *see* Q. Minh, L. et al.
Bradley, R.I., *see* Knox, J.W. et al.
Broner, I., K. Thompson and M. Dillon
Validation of a malting barley water and nutrient management expert system 33 (1997) 159

Cabelguenne, M., Ph. Debaeke, J. Puech and N. Bosc
Real time irrigation management using the EPIC-PHASE model and weather forecasts. . 32 (1997) 227
Cabrera, F., *see* Moreno, F. et al.
Calvez, R., *see* Gilot, L. et al.
Cayuela, J.A., *see* Moreno, F. et al.
Chartzoulakis, K.S. and M.H. Loupassaki
Effects of NaCl salinity on germination, growth, gas exchange and yield of greenhouse eggplant 32 (1997) 215
Chaudhary, M.R., *see* Gajri, P.R. et al.
Clemente, R.S., *see* Prasher, S.O. et al.
Clothier, B.E., *see* Green, S.R. et al.
Cone, D., *see* Wichelns, D. et al.
Cornish, P.S., *see* Esfandiari, M. et al.

Das Gupta, A., *see* Mainuddin, M. et al.
Debaeke, Ph., *see* Cabelguenne, M. et al.
De Silva, C.S. and E.K. Weatherhead
Optimising the dimensions of agrowells in hard-rock aquifers in Sri Lanka 33 (1997) 117
Dillon, M., *see* Broner, I. et al.

English, M. and S.N. Raja
Perspectives on deficit irrigation 32 (1996) 1
Esfandiari, M. and B.L. Maheshwari
Application of the optimization method for estimating infiltration characteristics in furrow irrigation and its comparison with other methods 34 (1997) 169
Esfandiari, M., B.L. Maheshwari and P.S. Cornish
Estimating recession times in furrows with small longitudinal slope on a clay soil 34 (1997) 187

Farah, S.M., A.A. Salih, A.M. Taha, Z.I. Ali and I.A. Ali
Grain sorghum response to supplementary irrigations under post-rainy season conditions. 33 (1997) 31
Fayyad, M., *see* Al-Nakshabandi, G.A. et al.
Fernández-Boy, E., *see* Moreno, F. et al.
Fernández, J.E., *see* Moreno, F. et al.
Ferreyra, R.E., A.U. Aljaro, R. Sch. Ruiz, L.P. Rojas and J.D. Oster
Behavior of 42 crop species grown in saline soils with high boron concentrations 34 (1997) 111
Feyen, J., *see* Zerihun, D. et al.

Gajri, P.R., K.S. Gill, M.R. Chaudhary and R. Singh
Irrigation of sunflower (*Helianthus annuus*) in relation to tillage and mulching 34 (1997) 149
Geng, G.Q., *see* Prasher, S.O. et al.
Gill, K.S., *see* Gajri, P.R. et al.
Gilot, L.
Evaluating water delivery in tertiary units. Part 1: Method 32 (1996) 147
Gilot, L., R. Calvez, P. Le Goulven and T. Ruf
Evaluating water delivery in tertiary units. Part 2: A case study, Urcuqui, a farmer-managed irrigation system in the Andes 32 (1996) 163
Green, S.R., B.E. Clothier and D.J. McLeod
The response of sap flow in apple roots to localised irrigation 33 (1997) 63

ELSEVIER

Agricultural Water Management 34 (1997) 271–280

Agricultural water management

Subject Index, Volumes 32–34

Acid sulphate soil
Surface water management under varying drainage conditions for rice on an acid sulphate soil in the Mekong Delta, Vietnam 33 (1997) 99

Actual water distribution
Evaluating water delivery in tertiary units. Part 1: Method 32 (1996) 147

Evaluating water delivery in tertiary units. Part 2: A case study, Urcuqui, a farmer-managed irrigation system in the Andes 32 (1996) 163

Agrowells
Optimising the dimensions of agrowells in hard-rock aquifers in Sri Lanka 33 (1997) 117

Analytic hierarchy process
Optimal crop planning model for an existing groundwater irrigation project in Thailand 33 (1997) 43

Apple roots
The response of sap flow in apple roots to localised irrigation 33 (1997) 63

Artichoke
Behavior of 42 crop species grown in saline soils with high boron concentrations 34 (1997) 111

Asparagus
Behavior of 42 crop species grown in saline soils with high boron concentrations 34 (1997) 111

Auto irrigation system
Design and development of an auto irrigation system 33 (1997) 169

Auto pumping unit
Design and development of an auto irrigation system 33 (1997) 169

Barley
Effects of water quality and frequency of irrigation on growth and yield of barley (*Hordeum vulgare* L.) 34 (1997) 17

Beans
Field-measured evapotranspiration as a stochastic process 32 (1996) 111

Boron
Behavior of 42 crop species grown in saline soils with high boron concentrations 34 (1997) 111

Broad bean
Behavior of 42 crop species grown in saline soils with high boron concentrations 34 (1997) 111

Carrot
Behavior of 42 crop species grown in saline soils with high boron concentrations 34 (1997) 111

Celery
Behavior of 42 crop species grown in saline soils with high boron concentrations 34 (1997) 111

Channel routing
Evaluation of a watershed scale forest hydrologic model 32 (1997) 239

Chile
Behavior of 42 crop species grown in saline soils with high boron concentrations 34 (1997) 111

Chlorination
Control of clogging in drip irrigation with stored treated municipal sewage effluent 33 (1997) 127

Clay
Seasonal movement of salts in naturally structured saline-sodic clay soils 32 (1996) 15

Clay soil
Application of the optimization method for estimating infiltration characteristics in furrow irrigation and its comparison with other methods 34 (1997) 169

Estimating recession times in furrows with small longitudinal slope on a clay soil 34 (1997) 187

Climate
Behavior of 42 crop species grown in saline soils with high boron concentrations 34 (1997) 111

Cluster analysis
Evaluating water delivery in tertiary units. Part 2: A case study, Urcuqui, a farmer-managed irrigation system in the Andes 32 (1996) 163

Convective transport
Model simulation of water and nitrate movement in a level-basin under fertigation treatments 32 (1997) 293

Cost assessment
Cost assessment of various means of averting environmental damage and groundwater contamination from nitrate seepage 32 (1997) 307

Crop coefficient
Application efficiency of micro-sprinkler irrigation of almond trees 34 (1997) 247

Evaluation of irrigation scheduling program and spring wheat yield response in southwestern Colorado 34 (1997) 137

Crop planning
Optimal crop planning model for an existing groundwater irrigation project in Thailand 33 (1997) 43

Crop water stress
Osmotic adjustment of sugar beets in response to soil salinity and its influence on stomatal conductance, growth and yield 34 (1997) 57

Crop water use efficiency
Osmotic adjustment of sugar beets in response to soil salinity and its influence on stomatal conductance, growth and yield 34 (1997) 57

Cultivars
Effect of saline irrigation on germination and growth parameters of barley (*Hordeum vulgare* L.) in a pot experiment 34 (1997) 125

Deficit irrigation
Perspectives on deficit irrigation 32 (1996) 1

Water use and yields of sugarbeet grown under every-other-furrow irrigation with different irrigation intervals 34 (1997) 71

Desorptivity
Soil water management implications during the constant rate and the falling rate stages of soil evaporation 33 (1997) 87

Drainage
Evaluation of a watershed scale forest hydrologic model 32 (1997) 239

Evaluation of two water table management models for Atlantic Canada 32 (1996) 49

Response of wheat to saline irrigation and drainage 32 (1997) 285

Seasonal movement of salts in naturally structured saline-sodic clay soils 32 (1996) 15

Drainage condition
Surface water management under varying drainage conditions for rice on an acid sulphate soil in the Mekong Delta, Vietnam 33 (1997) 99

Drainage water
Effects of water quality and frequency of irrigation on growth and yield of barley (*Hordeum vulgare* L.) 34 (1997) 17

DRAINMOD
Evaluation of a watershed scale forest hydrologic model 32 (1997) 239

Drip irrigation
A comparison of furrow, surface drip, and subsurface drip irrigation on lettuce yield and applied water 33 (1997) 139

Behavior of 42 crop species grown in saline soils with high boron concentrations 34 (1997) 111

Evaluation of irrigation scheduling program and spring wheat yield response in southwestern Colorado 34 (1997) 137

Drymatter
Effect of saline irrigation on germination and growth parameters of barley (*Hordeum vulgare* L.) in a pot experiment 34 (1997) 125

Economic analysis
Economic analysis of sprinkler and siphon tube irrigation systems, with implications for public policies 32 (1997) 259

Economic analysis of trickle irrigation system considering planting geometry 34 (1997) 195

Economic incentives
Economic analysis of sprinkler and siphon tube irrigation systems, with implications for public policies 32 (1997) 259

Economics
Cost assessment of various means of averting environmental damage and groundwater contamination from nitrate seepage 32 (1997) 307

Perspectives on deficit irrigation 32 (1996) 1

Ecuador
Evaluating water delivery in tertiary units. Part 2: A case study, Urcuqui, a farmer-managed irrigation system in the Andes 32 (1996) 163

Efficiency
Perspectives on deficit irrigation 32 (1996) 1

Emitters
Control of clogging in drip irrigation with stored treated municipal sewage effluent 33 (1997) 127

Environment
Some environmental problems associated with the use of treated wastewater for irrigation in Jordan 34 (1997) 81

Environmental pollution
Cost assessment of various means of averting environmental damage and groundwater contamination from nitrate seepage 32 (1997) 307

Evaluation
Evaluation of an irrigation water management scheme — a case study 32 (1997) 181

Evaporation
Soil water management implications during the constant rate and the falling rate stages of soil evaporation 33 (1997) 87

Evapotranspiration
Field-measured evapotranspiration as a stochastic process 32 (1996) 111

Nitrogen and chloride concentration in deep soil cores related to fertilization 34 (1997) 1

Water balance estimates over Greece 32 (1996) 85

Evapotranspiration (ET)
Evaluation of irrigation scheduling program and spring wheat yield response in southwestern Colorado 34 (1997) 137

Expert system
Validation of a malting barley water and nutrient management expert system 33 (1997) 159

Extended Kostiakov function
Evaluation of the portable furrow infiltrometer 34 (1997) 207

Faba bean
Growth of faba bean (*Vicia faba* L.) as influenced by irrigation water salinity and time of salinization 34 (1997) 161

Faecal coliforms
Some environmental problems associated with the use of treated wastewater for irrigation in Jordan 34 (1997) 81

Filters
Control of clogging in drip irrigation with stored treated municipal sewage effluent 33 (1997) 127

Furrow irrigation
A comparison of furrow, surface drip, and subsurface drip irrigation on lettuce yield and applied water 33 (1997) 139

Application of the optimization method for estimating infiltration characteristics in furrow irrigation and its comparison with other methods 34 (1997) 169

Estimating recession times in furrows with small longitudinal slope on a clay soil 34 (1997) 187

Evaluation of the portable furrow infiltrometer 34 (1997) 207

Gate valve
Design and development of an auto irrigation system 33 (1997) 169

Germination
Effect of saline irrigation on germination and growth parameters of barley (*Hordeum vulgare* L.) in a pot experiment 34 (1997) 125

GIS
Mapping the total volumetric irrigation water requirements in England and Wales 33 (1997) 1

Greenmatter
Effect of saline irrigation on germination and growth parameters of barley (*Hordeum vulgare* L.) in a pot experiment 34 (1997) 125

Hard-rock aquifers, Sri Lanka
Optimising the dimensions of agrowells in hard-rock aquifers in Sri Lanka 33 (1997) 117

Heat-pulse method
The response of sap flow in apple roots to localised irrigation 33 (1997) 63

Heavy metals
Some environmental problems associated with the use of treated wastewater for irrigation in Jordan 34 (1997) 81

Hordeum vulgare
Effects of water quality and frequency of irrigation on growth and yield of barley (*Hordeum vulgare* L.) 34 (1997) 17

Infiltration estimation
Application of the optimization method for estimating infiltration characteristics in furrow irrigation and its comparison with other methods 34 (1997) 169

Infiltration rate
Evaluation of the portable furrow infiltrometer 34 (1997) 207

Initial capital cost
Economic analysis of trickle irrigation system considering planting geometry 34 (1997) 195

Ion content
Effects of NaCl salinity on germination, growth, gas exchange and yield of greenhouse eggplant 32 (1997) 215

Irrigated cotton
Simulation of soil moisture dynamics on irrigated cotton in semi-arid climates 34 (1997) 233

Irrigation
A comparison of furrow, surface drip, and subsurface drip irrigation on lettuce yield and applied water 33 (1997) 139

Evaluating water delivery in tertiary units. Part 1: Method 32 (1996) 147

Evaluating water delivery in tertiary units. Part 2: A case study, Urcuqui, a farmer-managed irrigation system in the Andes 32 (1996) 163

Field-measured evapotranspiration as a stochastic process 32 (1996) 111

Mapping the total volumetric irrigation water requirements in England and Wales 33 (1997) 1

Simulation of soil moisture dynamics on irrigated cotton in semi-arid climates 34 (1997) 233

Some environmental problems associated with the use of treated wastewater for irrigation in Jordan 34 (1997) 81

Water balance and nitrate leaching in an irrigated maize crop in SW Spain 32 (1996) 71

Irrigation demand maps
Mapping the total volumetric irrigation water requirements in England and Wales 33 (1997) 1

Irrigation depth increments
Response of wheat to saline irrigation and drainage 32 (1997) 285

Irrigation design and management
Estimating recession times in furrows with small longitudinal slope on a clay soil 34 (1997) 187

Irrigation efficiency
Application efficiency of micro-sprinkler irrigation of almond trees 34 (1997) 247

Nitrogen and chloride concentration in deep soil cores related to fertilization 34 (1997) 1

Simple microirrigation techniques for improving irrigation efficiency on vegetable gardens 32 (1996) 37

Irrigation management
Real time irrigation management using the EPIC-PHASE model and weather forecasts 32 (1997) 227

Irrigation production efficiency
Grain sorghum response to supplementary irrigations under post-rainy season conditions 33 (1997) 31

Irrigation scheduling
Evaluation of irrigation scheduling program and spring wheat yield response in southwestern Colorado 34 (1997) 137

Irrigation planning in wheat (*Triticum aestivum*) under deep water table conditions through simulation modelling 33 (1997) 19

Irrigation strategies
Evaluating water delivery in tertiary units. Part 2: A case study, Urcuqui, a farmer-managed irrigation system in the Andes 32 (1996) 163

Irrigation systems
Economic analysis of sprinkler and siphon tube irrigation systems, with implications for public policies 32 (1997) 259

Irrigation water management
Application efficiency of micro-sprinkler irrigation of almond trees 34 (1997) 247

Large diameter wells
Optimising the dimensions of agrowells in hard-rock aquifers in Sri Lanka 33 (1997) 117

Leaching
Seasonal movement of salts in naturally structured saline-sodic clay soils 32 (1996) 15

Leaching requirements
Effect of saline irrigation on germination and growth parameters of barley (*Hordeum vulgare* L.) in a pot experiment 34 (1997) 125

Leaf water potential
Osmotic adjustment of sugar beets in response to soil salinity and its influence on stomatal conductance, growth and yield 34 (1997) 57

Limiting relative humidity
Accounting for humidity in canopy-temperature-controlled irrigation scheduling 34 (1997) 217

Localisation scheme: ID crops
Evaluation of an irrigation water management scheme — a case study 32 (1997) 181

Lysimeters
Response of wheat to saline irrigation and drainage 32 (1997) 285

Macropore
Bypass flow and its role in leaching of raised beds under different land use types on an acid sulphate soil 32 (1996) 131

Maize
Real time irrigation management using the EPIC-PHASE model and weather forecasts 32 (1997) 227

Water balance and nitrate leaching in an irrigated maize crop in SW Spain 32 (1996) 71

Malting barley
Validation of a malting barley water and nutrient management expert system 33 (1997) 159

Management
Evaluation of two water table management models for Atlantic Canada 32 (1996) 49

Mathematical models
Simulation of soil moisture dynamics on irrigated cotton in semi-arid climates 34 (1997) 233

Microirrigation
Control of clogging in drip irrigation with stored treated municipal sewage effluent 33 (1997) 127

Simple microirrigation techniques for improving irrigation efficiency on vegetable gardens 32 (1996) 37

Micro irrigation water meter
Design and development of an auto irrigation system 33 (1997) 169

Mineralization
Model simulation of water and nitrate movement in a level-basin under fertigation treatments 32 (1997) 293

Model
Real time irrigation management using the EPIC-PHASE model and weather forecasts 32 (1997) 227

Modelling
Application of the optimization method for estimating infiltration characteristics in furrow irrigation and its comparison with other methods 34 (1997) 169

Cost assessment of various means of averting environmental damage and groundwater contamination from nitrate seepage 32 (1997) 307

Models
Evaluation of two water table management models for Atlantic Canada 32 (1996) 49

Modified tensiometer
Design and development of an auto irrigation system 33 (1997) 169

Net return
Economic analysis of trickle irrigation system considering planting geometry 34 (1997) 195

Nitrate
Impact of hardy ornamental nursery stock (HONS) systems on the environment: losses of nutrients and agrochemicals 34 (1997) 95

Nitrate leaching
Cost assessment of various means of averting environmental damage and groundwater contamination from nitrate seepage 32 (1997) 307

Water balance and nitrate leaching in an irrigated maize crop in SW Spain 32 (1996) 71

Nitrification
Model simulation of water and nitrate movement in a level-basin under fertigation treatments 32 (1997) 293

Nitrogen and phosphorus
Some environmental problems associated with the use of treated wastewater for irrigation in Jordan 34 (1997) 81

Nitrogen efficiency
Nitrogen and chloride concentration in deep soil cores related to fertilization 34 (1997) 1

Nitrogen fertilization
Water balance and nitrate leaching in an irrigated maize crop in SW Spain 32 (1996) 71

NO_3-N leaching
Model simulation of water and nitrate movement in a level-basin under fertigation treatments 32 (1997) 293

Nursery
Impact of hardy ornamental nursery stock (HONS) systems on the environment: losses of nutrients and agrochemicals 34 (1997) 95

Onion
Behavior of 42 crop species grown in saline soils with high boron concentrations 34 (1997) 111

Optimisation
Optimal crop planning model for an existing groundwater irrigation project in Thailand 33 (1997) 43

Opus model
Model simulation of water and nitrate movement in a level-basin under fertigation treatments 32 (1997) 293

Osmotic adjustment
Osmotic adjustment of sugar beets in response to soil salinity and its influence on stomatal conductance, growth and yield 34 (1997) 57

Penman–Monteith ET
Evaluation of a watershed scale forest hydrologic model 32 (1997) 239

Perceived requirement
Analysis of surface irrigation performance terms and indices 34 (1997) 25

Percolation loss
Irrigation planning in wheat (*Triticum aestivum*) under deep water table conditions through simulation modelling 33 (1997) 19

Performance
Analysis of surface irrigation performance terms and indices 34 (1997) 25

Performance indices
Evaluation of an irrigation water management scheme — a case study 32 (1997) 181

Pesticides
Impact of hardy ornamental nursery stock (HONS) systems on the environment: losses of nutrients and agrochemicals 34 (1997) 95

Phosphate
Impact of hardy ornamental nursery stock (HONS) systems on the environment: losses of nutrients and agrochemicals 34 (1997) 95

Photosynthesis
Effects of NaCl salinity on germination, growth, gas exchange and yield of greenhouse eggplant 32 (1997) 215

Pineapple
Bypass flow and its role in leaching of raised beds under different land use types on an acid sulphate soil 32 (1996) 131

Plant height
Effect of saline irrigation on germination and growth parameters of barley (*Hordeum vulgare* L.) in a pot experiment 34 (1997) 125

Planting geometry
Economic analysis of trickle irrigation system considering planting geometry 34 (1997) 195

Plant tillers
Effect of saline irrigation on germination and growth parameters of barley (*Hordeum vulgare* L.) in a pot experiment 34 (1997) 125

Portable infiltrometer
Evaluation of the portable furrow infiltrometer 34 (1997) 207

Potato
Behavior of 42 crop species grown in saline soils with high boron concentrations 34 (1997) 111

Preferential flow
Long-term salinity development in a lysimeter experiment 34 (1997) 47

Prickly pear cactus
Behavior of 42 crop species grown in saline soils with high boron concentrations 34 (1997) 111

Rainfall
Seasonal movement of salts in naturally structured saline-sodic clay soils 32 (1996) 15

Rain-fed agriculture
Hillslope dynamics of on-farm generation of surface water flows: The case of rain-fed cultivation of pearl millet on sandy soil in the Sahel 33 (1997) 183

Recession times
Estimating recession times in furrows with small longitudinal slope on a clay soil 34 (1997) 187

Recirculating infiltrometer
Evaluation of the portable furrow infiltrometer 34 (1997) 207

Re-circulation
Impact of hardy ornamental nursery stock (HONS) systems on the environment: losses of nutrients and agrochemicals 34 (1997) 95

Red and sugar beets
Behavior of 42 crop species grown in saline soils with high boron concentrations 34 (1997) 111

Rice
Surface water management under varying drainage conditions for rice on an acid sulphate soil in the Mekong Delta, Vietnam 33 (1997) 99

Risk
Perspectives on deficit irrigation 32 (1996) 1

Root growth
Irrigation of sunflower (*Helianthus annuus*) in relation to tillage and mulching 34 (1997) 149

Runoff
Hillslope dynamics of on-farm generation of surface water flows: The case of rain-fed culti-

vation of pearl millet on sandy soil in the Sahel 33 (1997) 183

Sahel
Hillslope dynamics of on-farm generation of surface water flows: The case of rain-fed cultivation of pearl millet on sandy soil in the Sahel 33 (1997) 183

Salinity
Behavior of 42 crop species grown in saline soils with high boron concentrations 34 (1997) 111

Effects of NaCl salinity on germination, growth, gas exchange and yield of greenhouse eggplant 32 (1997) 215

Effects of water quality and frequency of irrigation on growth and yield of barley (*Hordeum vulgare* L.) 34 (1997) 17

Seasonal movement of salts in naturally structured saline-sodic clay soils 32 (1996) 15

Salinity-fertility interaction
Effects of water quality and frequency of irrigation on growth and yield of barley (*Hordeum vulgare* L.) 34 (1997) 17

Salinity tolerance
Growth of faba bean (*Vicia faba* L.) as influenced by irrigation water salinity and time of salinization 34 (1997) 161

Salt balance
Long-term salinity development in a lysimeter experiment 34 (1997) 47

Salt tolerance
Effect of saline irrigation on germination and growth parameters of barley (*Hordeum vulgare* L.) in a pot experiment 34 (1997) 125

Osmotic adjustment of sugar beets in response to soil salinity and its influence on stomatal conductance, growth and yield 34 (1997) 57

Sap flow
The response of sap flow in apple roots to localised irrigation 33 (1997) 63

Semi-arid
Hillslope dynamics of on-farm generation of surface water flows: The case of rain-fed cultivation of pearl millet on sandy soil in the Sahel 33 (1997) 183

Shallot
Behavior of 42 crop species grown in saline soils with high boron concentrations 34 (1997) 111

Simulation
Simulation of soil moisture dynamics on irrigated cotton in semi-arid climates 34 (1997) 233

Small slopes
Estimating recession times in furrows with small longitudinal slope on a clay soil 34 (1997) 187

Soil moisture
Field-measured evapotranspiration as a stochastic process 32 (1996) 111

Simulation of soil moisture dynamics on irrigated cotton in semi-arid climates 34 (1997) 233

Soil moisture deficit
Water balance estimates over Greece 32 (1996) 85

Soil salinity
Long-term salinity development in a lysimeter experiment 34 (1997) 47

Soil water content
The areal distribution of soil moisture under sprinkler irrigation 32 (1996) 29

Soil water sampling
Long-term salinity development in a lysimeter experiment 34 (1997) 47

Solanum melongena, L.
Effects of NaCl salinity on germination, growth, gas exchange and yield of greenhouse eggplant 32 (1997) 215

Solute dispersion
Model simulation of water and nitrate movement in a level-basin under fertigation treatments 32 (1997) 293

Sorghum
Grain sorghum response to supplementary irrigations under post-rainy season conditions 33 (1997) 31

Spinach
Behavior of 42 crop species grown in saline soils with high boron concentrations 34 (1997) 111

Sprinkler irrigation
The areal distribution of soil moisture under sprinkler irrigation 32 (1996) 29

Stochastic processes
Field-measured evapotranspiration as a stochastic process 32 (1996) 111

Stomatal conductance
Osmotic adjustment of sugar beets in response to soil salinity and its influence on stomatal conductance, growth and yield 34 (1997) 57

Subject region
Analysis of surface irrigation performance terms and indices 34 (1997) 25

Sugar beet
Osmotic adjustment of sugar beets in response to soil salinity and its influence on stomatal conductance, growth and yield 34 (1997) 57

Supplementary irrigation
Grain sorghum response to supplementary irrigations under post-rainy season conditions 33 (1997) 31

Surface crust
Hillslope dynamics of on-farm generation of surface water flows: The case of rain-fed cultivation of pearl millet on sandy soil in the Sahel 33 (1997) 183

Surface water management
Surface water management under varying drainage conditions for rice on an acid sulphate soil in the Mekong Delta, Vietnam 33 (1997) 99

Sweet corn
Behavior of 42 crop species grown in saline soils with high boron concentrations 34 (1997) 111

Swiss chard
Behavior of 42 crop species grown in saline soils with high boron concentrations 34 (1997) 111

Temperature threshold
Accounting for humidity in canopy-temperature-controlled irrigation scheduling 34 (1997) 217

Thornthwaite ET
Evaluation of a watershed scale forest hydrologic model 32 (1997) 239

Time-domain reflectometry
The response of sap flow in apple roots to localised irrigation 33 (1997) 63

Time of salinization
Growth of faba bean (*Vicia faba* L.) as influenced by irrigation water salinity and time of salinization 34 (1997) 161

Time threshold
Accounting for humidity in canopy-temperature-controlled irrigation scheduling 34 (1997) 217

Trickle irrigation
Economic analysis of trickle irrigation system considering planting geometry 34 (1997) 195

Uniformity
The areal distribution of soil moisture under sprinkler irrigation 32 (1996) 29

Validation
Validation of a malting barley water and nutrient management expert system 33 (1997) 159

Vegetables
Simple microirrigation techniques for improving irrigation efficiency on vegetable gardens 32 (1996) 37

Vietnam
Bypass flow and its role in leaching of raised beds under different land use types on an acid sulphate soil 32 (1996) 131

Wastewater
Control of clogging in drip irrigation with stored treated municipal sewage effluent 33 (1997) 127

Cost assessment of various means of averting environmental damage and groundwater contamination from nitrate seepage 32 (1997) 307

Wastewater use
Some environmental problems associated with the use of treated wastewater for irrigation in Jordan 34 (1997) 81

Water and N management
Model simulation of water and nitrate movement in a level-basin under fertigation treatments 32 (1997) 293

Water balance
Water balance and nitrate leaching in an irrigated maize crop in SW Spain 32 (1996) 71

Water balance estimates over Greece 32 (1996) 85

Water balance simulatio
Evaluating water delivery in tertiary units. Part 1: Method 32 (1996) 147

Water conservation
Water use and yields of sugarbeet grown under every-other-furrow irrigation with different irrigation intervals 34 (1997) 71

Water distribution rules
Evaluating water delivery in tertiary units. Part 1: Method 32 (1996) 147

Evaluating water delivery in tertiary units. Part 2: A case study, Urcuqui, a farmer-managed irrigation system in the Andes 32 (1996) 163

Water economics
Grain sorghum response to supplementary irrigations under post-rainy season conditions 33 (1997) 31

Water extraction
Irrigation of sunflower (*Helianthus annuus*) in relation to tillage and mulching 34 (1997) 149

Water harvesting
Hillslope dynamics of on-farm generation of surface water flows: The case of rain-fed cultivation of pearl millet on sandy soil in the Sahel 33 (1997) 183

Water management
Evaluation of an irrigation water management scheme — a case study 32 (1997) 181

Water management response indicators
Irrigation planning in wheat (*Triticum aestivum*) under deep water table conditions through simulation modelling 33 (1997) 19

Water policy
Economic analysis of sprinkler and siphon tube irrigation systems, with implications for public policies 32 (1997) 259

Water relations
Effects of NaCl salinity on germination, growth, gas exchange and yield of greenhouse eggplant 32 (1997) 215

Water salinity
Effect of saline irrigation on germination and growth parameters of barley (*Hordeum vulgare* L.) in a pot experiment 34 (1997) 125

Watershed scale model
Evaluation of a watershed scale forest hydrologic model 32 (1997) 239

Water stress
Real time irrigation management using the EPIC-PHASE model and weather forecasts 32 (1997) 227

Water table
Evaluation of two water table management models for Atlantic Canada 32 (1996) 49

Response of wheat to saline irrigation and drainage 32 (1997) 285

Water uptake
The response of sap flow in apple roots to localised irrigation 33 (1997) 63

Water use efficiency
Irrigation of sunflower (*Helianthus annuus*) in relation to tillage and mulching 34 (1997) 149

Water use and yields of sugarbeet grown under every-other-furrow irrigation with different irrigation intervals 34 (1997) 71

Weather forecasts
Real time irrigation management using the EPIC-PHASE model and weather forecasts 32 (1997) 227

Yam
Bypass flow and its role in leaching of raised beds under different land use types on an acid sulphate soil 32 (1996) 131
